### PARTIAL BUS STATION CLOSURE

Staff should note that as a result of the demolition of Terminal Buildings, stands A and B will close from Tuesday 6<sup>th</sup> May.

As a result, a number of stand alterations will take place within the bus station.

Additionally, on Monday to Saturday from start of service until approx 1900, services 27, 28, 29B, 30, 35 (to Gabalfa), 44, 45, 49, 50, 52, 52A, 57 & 58 will all move from CBS to start from their appropriate stop in St Mary Street – Golate or Hodge House.

Service 30 will start from a new stop in lower St Mary Street – Philharmonic 3.

From 1900 onwards, and all day Sunday, these services will return to CBS and, generally, use their current stand.

Certain Stagecoach and Veolia services will also move, as will the X30 of Newport Bus.

Full details on a service by service basis are attached. New bus stops have been established on both sides of lower St Mary Street.

Those services displaced will operate as follows:-

Normal inbound route to High Street Arcade, then the next stop (and end of your journey) will be the new stop on St Mary Street just north of Wood Street. This has been called Morgan Arcade on pads

After this you will go out of service and layover on either side of Callaghan Square – the current parking bays will be suspended. The layover point is firstly on the north side of Callaghan Square – outside Eversheds – if those bays are occupied use the south side.

Five minutes before departure from St Mary Street, you will go from Callaghan Square to either Golate or Hodge House to start the next journey.

Generally, if you are due for relief, you will stop at one of the Philharmonic stops nearest to Customhouse Street for the relief to take place – i.e. if you are coming off you will wait with the bus whilst it lays over at Callaghan Square, which explains why the relief time on the duty is after your arrival time in St Mary Street.

In the case of service 30 – the layover will take place at the bus stop on Customhouse Street outside the Unison office. X30 will also layover here. Five minutes before the scheduled departure time move to Philharmonic 3 stop to start your journey – or be relieved.

Certain layovers on the BPA will move to Callaghan Square to remove pressure on the bus station.

There will be no alteration to destination displays, so when operating a journey finishing in St Mary Street you will still display Central Station.

In view of the lack of toilet facilities in Callaghan Square/St Mary Street, drivers on services leaving from St Mary Street may bring their bus into the bus station to use the toilet facility – which itself will be relocated to under Wood Street MSCP. Inspectors will ensure this concession is not being abused.

Pedestrian access from Wood Street to the bus station will be through a temporary access point in the barrier outside Marland House adjacent to D stand. It is important that all staff use this point to access the bus station and do not walk on the roadway through the bus station exit.

Additionally, there will be an access for National Express passengers from Marland House to C stand.

On Monday to Saturday journeys on service 96 have been advanced in the Cardiff to Barry direction by three minutes. Additionally, on Monday to Friday a 1755 journey has been introduced from Barry to Cardiff. The revised timetable is attached.

These arrangements are likely to be in force until September.
